# **SANDY BOX**

#### Contents • Lieferumfang:

1 ..... 5 V Adapter (100 - 240 V input)

2 ..... USB cable

3 ..... Sandy Box

1 ..... 5 V Netzteil (100 - 240 V Input)

2 ..... USB Kabel

3 .... Sandy Box

#### Commissioning • Inbetriebnahme:

#### Connect the 5 V adapter.

First connect all cables to the Sandy Box, after that connect the 5V adapter to the socket.

#### Anschließen des 5 V Netzteiles.

Zuerst alle Kabeln mit der Sandy Box verbinden, danach das Netzteil an die Stromversorgung anschließen.

## Connect the USB cable to the Sandy Box.

Do not connect the USB cable to the PC now! This is the last step.

## Anschließen des USB Kabels an die Sandy Box.

Das USB Kabel noch nicht an den PC anschließen! Dies ist der letzte Schritt.

Connect the Parallel Cable. Close the two fixing screws.

Anschließen des Parallelkabels. Anziehen der Sicherrungsschrauben.

Connect the Parallel Cable to the Lin-Contr. box.

Close the two fixing screws.

Anschließen des Parallelkabels an die Lin-Contr. Box. Anziehen der Sicherrungsschrauben.

Connect the adapter to the electricity.

Netzteil mit der Stromversorgung verbinden.

## SandyBox details • SandyBox Details:

- 1 ... ON / OFF button
- 2 ... Micro SD slot
- 1 ... Ein/Aus Taster
- 2 ... Mikro SD Steckplatz

Green LED shine -> SandyBox is running

Grüne LED leuchtet -> SandyBox ist eingeschalten

Red LED shine -> CNC application is running (machine power on) (ON/OFF button didn't work)

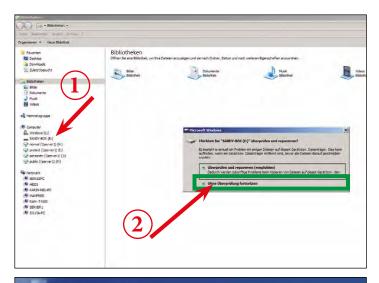

Rote LED leuchtet -> CNC Anwendung läuft (Machine ON) (ON/OFF Taster deaktiviert)

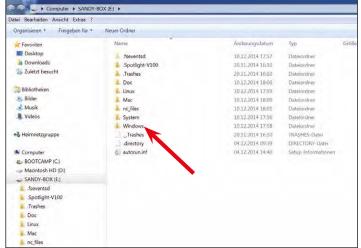

## *Installation (Windows®)* • Installation (Windows®):

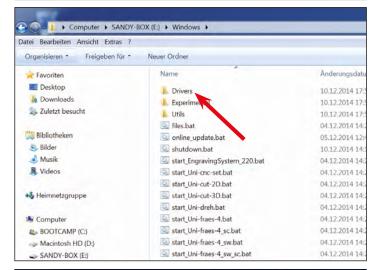

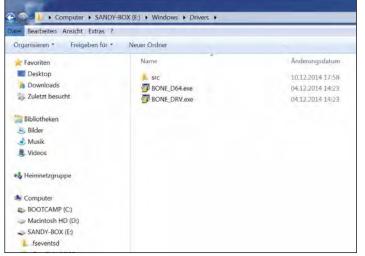

Connect it to a free USB port.
Wait until it shows under Windows.
(PC with Windows XP or higher)

Anschließen an einen freien USB Port. Sandy Box wird von Windows erkannt (kurze Wartezeit). (PC mit Windows XP oder neuer)

- 1 ..... Windows shows Sandy Box
- 2 ..... Select without verification
- 1 ..... Sandy Box wird angezeigt
- 2 ..... Ohne Überprüfung auswählen

"Continue"

Left PC, right Sandy Box (file copy via Drag and Drop)

Links PC, rechts Sandy Box. (Datei kopieren via Drag and Drop)

#### Shutdown Sandy Box • Herunterfahren der Sandy Box:

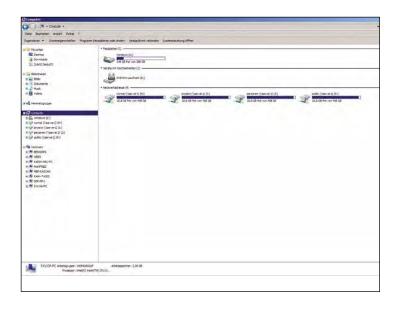

Double-click "shutdown"

Doppelklick "shutdown"

Follow the instructions

Den Anweisungen folgen

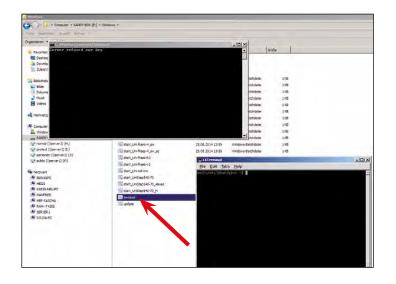

Disconnect SandyBox from the PC

SandyBox vom PC abstecken

## Additional functions • Zusatzfunktionen:

only for advance user • nur für fortgeschrittene Anwender

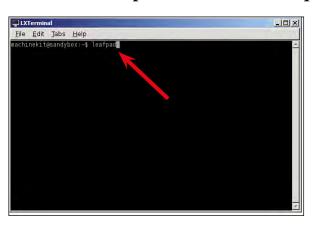

#### Terminal • Terminal:

Double-click "terminal"

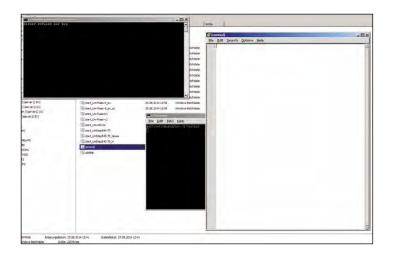

Doppelklick "terminal"

#### Text editor "leafpad"• Texteditor "leafpad":

Enter leafpad.

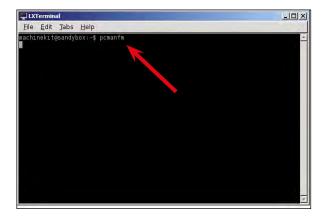

leafpad eingeben

Leafpad runs on the Sandy Box.

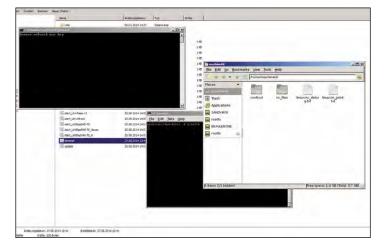

Leafpad läuft auf der Sandy Box

## File explorer "pcmanfm"• Datei Explorer "pcmanfm":

Enter pcmanfm.

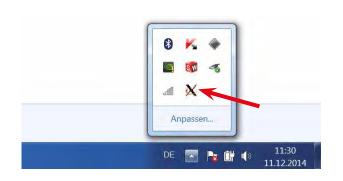

pcmanfm eingeben

Pcmanfm runs on the Sandy Box.

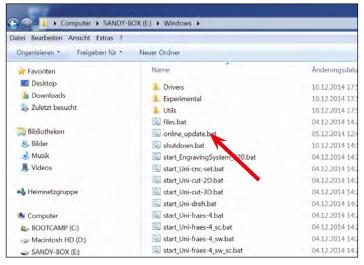

Pcmanfm läuft auf der Sandy Box.

## Online update • Onlineupdate:

Connect the SandyBox to a PC with internet access. Check first if Xming is running. If its running, close it.

SandyBox an einen PC mit Internetzugang anschließen. Falls Xming läuft, diese beenden.

Double-click "online\_update"

Doppelklick "online\_update"

```
Sandy-Box Updater - E:\System\update\PythonPortable\App\python.ex

This script will update the Sandy-Box system.

The update script will download a lot of data.

Do you want to proceed? (y/n):
```

type "y" for continue

tippe "y" zum Fortfahren
